RE: A. O. Smith Corporation's Responses to EPA Request for Information and Documents Relating to Harbor Island Superfund Site East Waterway Operable Unit

Dear Richard:

I am writing on behalf of A. O. Smith Corporation ("A. O. Smith") in response to the U.S. EPA's March 10, 2020 information request and following up on our previous response submitted to you on August 31, 2020.

As explained in my September 21 email, a technical error prevented us from including a number of responsive documents with our initial production. Accordingly, with this letter we are providing A.O. Smith's revised written responses and the Declaration of Kevin J. Domack. A supplemental production of responsive documents (which replaces the previous production) is available at the secure link below:

(b) (6)

The password to access the link will be sent under separate cover.

Please contact me if you would like to discuss any of the above, or A.O. Smith's responses to the information request.

Sincerely,

GODFREY & KAHN, S.C.

Arthur J. Harrington
